Notes: Stocks are as at December 31st of each year. Source: Portfolio securities from Zucman (2015), file "Global offshore wealth" available at http://gabriel-zucman.eu/files/Zucman2015MissingWealth.xlsx, Table A.3, which updated the Appendix of Zucman (QJE 2013). The series in Zucman (2015) are very close to those in the QJE article, except in 2008 (latest data point in the QJE article) and 2006, where the updated series are about 5% lower. The 2008 decline was due to the availability of updated IIP data; but the 2006 revision is not consistent with the Swiss data (it implies an implausibly high Swiss share of 55%), therefore we correct the 2006 data point. Bank deposits: we use Zucman's (2015) number for end-2013, \$1500 billion, and assume that bank deposits follow the total amount of BIS deposits in banking havens.
